## Introduction:

Kadtronix develops software and systems for applications targeting access control and automation including innovative design solutions for businesses and OEMs around the world. Founded in 2001, we specialize primarily in real-time systems and embedded control. Several of our software products are available on a license basis, including the following:

- Wi-Fi Card Data Logger (WCDL)
- Magstripe Card Access System (MCAS)
- Wi-Fi Card Access System (WCAS)

This narrative instruction explains how to request a license and subsequently invoke your license key. Though the task may seem daunting at the outset, it is a relatively simple procedure that can be completed in a matter of minutes. If you have just downloaded and/or purchased a Kadtronix product and are considering a license, this tutorial will provide the information and instruction needed for moving forward.

Your Kadtronix application software can be activated for any one of three possible editions. Before proceeding, determine which license edition best suits your needs.

- Lite (if available)
- Standard
- Premium

Rather than several independent downloads, a single application download is made available for all possible editions. After download and install, you may then [apply for a desired license](#).

A Lite edition may be available which can be freely used for evaluation purposes. (A purchase-free license is included.) The Standard edition includes all functionality of the Lite edition as well as additional relevant features. The Premium edition enables all available features, options, and capabilities of the software application. (Refer to details concerning your particular software for details and specifications.)

### Notes:

- *Unless otherwise stated, Kadtronix software and licensing are applicable only to Windows-based computer platforms.*
- *In lieu of a lite edition, some Kadtronix applications may enable premium features on a trial basis. Once the evaluation period ends, a license must be purchased to permit permanent use of the software.*

## License Types

If you are contemplating the purchase a license, bear in mind that we generally offer two license types:

- Node-locked (most common)
- Site license

A node-locked license is intended for use on a single computer, typically for use by one or more individuals, possibly employed in a small company or within a department. Use of the software is restricted to the computer onto which the software was installed. A unique license key will be created specifically for the PC or laptop, based upon a unique 4-digit alphanumeric node identifier.

A site-license permits an unlimited number of installations within a particular company or organization. A unique license key will be created which can be applied to multiple PCs and/or laptops.

## Obtaining a License

There are two basic steps in the licensing operation:

- [Purchase](#)
- [Activation](#)

These events are described in subsequent sections.

## Purchasing a License:

Requesting a license key is a simple action since Kadtronix software provides the means to assist you. If you haven't already done so, launch your Kadtronix software application. When the main screen appears, navigate the program menu as follows:

**Help → Registration...**

The following dialog image will appear:

### Registration

Register

Registration is required for receiving support. Enter the requested data in the fields below & click the "Send" button to e-mail the form data. ("Send" button remains disabled (grayed) until all fields are populated.)

Product Edition: Lite Edition

First Name: Ben

Last Name: Thompson

Company: ACME Hauling

E-Mail Address: bthompson@acmehaul.com

Telephone: 555-555-5555

Purchased From: Kadtronix

Date Purchased: 3/5/24

OS Version: Windows

Disk ID: 3FCF

Comments: Want to purchase a premium license

Send Cancel Copy

Complete the requested fields as shown. The following entries will be pre-filled for your convenience:

- Product Edition
- OS Version
- Disk ID

The product edition indicates your current software edition. (Use the "Comments:" field to indicate the desired edition you wish to obtain.) OS version may indicate your specific version of Windows, or may simply state, "Windows". The disk ID is a critical identifier and is required for creating a [node-locked license](#).

Once you have completed the field assignments, submit the form content using the "Send" button.

**Note: If unable to submit the registration form for any reason, you may send a manual e-mail, as explained below.**

Optionally, you may send a manual e-mail license request. Simply open your preferred e-mail client (e.g., Outlook, Gmail, etc.). Then, compose a message as follows:

- To: [info@kadtronix.com](mailto:info@kadtronix.com)
- Subject: Kadtronix License Request
- Message body: (see content below)

"Please send purchase instructions for the following license:"

- Application: [MCAS / WCAS / WCDL]
- Edition: [standard / premium]
- Type: [node locked / site license]
- Disk ID: [XXXX] - "XXXX" is 4-digit disk ID shown in the [registration dialog](#)

Please also attach a screen capture of the [Registration dialog](#) with completed field entries. After receiving your e-mail submission, Kadtronix will reply with purchase instructions.

## License Key:

Following completion of the purchase transaction, you will receive a license key via e-mail. (The key is an encoded alphanumeric string consisting of 14 characters.) The example below demonstrates the format:

i2D3p6ivEBECRI

## Activating the License:

Activating your license requires a [valid key](#). If you have not obtained a key, you may easily [request a license](#) at any time.

Once you have obtained the key, launch your Kadtronix software application. When the main screen appears, navigate the program menu as follows:

**Help → Enter License Key...**

The following dialog image will appear:

### Licensing

**Licensing**

Request New License:

Enter your license key code in the field below. If you do not have a code, click "Send E-Mail License Request..." to obtain one. (Note: Key codes are case sensitive. Be sure to enter value exactly as printed.)

Send E-Mail License Request...

Enter key:

License Summary:

This section displays summary information regarding your purchased license.

Software Edition:

License Date:

Node ID:

Key Code:

OK Cancel

Copy/paste your license key into the appropriate field as shown:

### Licensing

The screenshot shows a 'Licensing' dialog box with two main sections. The 'Request New License' section on the left contains a text area with instructions and a 'Send E-Mail License Request...' button. Below this is an 'Enter key:' label followed by a text field containing the license key 'i2D 3p6ivEBECsL', which is circled in orange. An orange arrow points from the 'License Summary' section to this key field. The 'License Summary' section on the right contains a text area with instructions and several fields: 'Software Edition' (set to 'Lite'), 'License Date' (set to '03/06/24'), 'Node ID' (set to '3FCF'), and an empty 'Key Code' field. At the bottom of the dialog are 'OK' and 'Cancel' buttons.

After entering the key, click "OK" to activate your license.

#### Notes

- "License Summary:" shown above indicates your current software edition (i.e., "Lite"), but will be updated (to Standard or Premium) following activation of your new license key.
- Keep in mind that though your purchased license remains valid indefinitely, the activation key remains valid for a finite length of time and should be used promptly to activate your newly installed software application. (Should you have need to re-install the application at a future date, it may be necessary to request an updated license key.) The following table lists activation-key life for indicated Kadtronix applications:

<b>Application:</b>	<b>Node-key expire:</b>	<b>Site-key expire:</b>
MCAS	14 days	1 year
WCAS	14 days	1 year
WCDL	No expiration	3 years
